

NICOLAS MENDOZA

I am a developer with 3 years of experience creating custom web solutions and custom applications. I have worked on various projects, including inventory management systems, financial management platforms, e-commerce applications and landing pages. During my career, I have applied various technologies and worked under agile methodologies such as Scrum, collaborating in multidisciplinary teams with tools such as JIRA, Git and GitHub. My focus is on developing efficient solutions aligned with business needs, ensuring timely and high-quality deliveries.
